Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these Pills are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.

"Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The Pills you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of dyspepsia and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHOEA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and diarrhoea. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practises as a Physician and Midwife in Boston.

"I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your Pills purify the blood. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—FOUL STOMACH—PILES—DROPSY—PLETHORA—PARALYSIS—FITS—&c.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you what complaints I have cured with your Pills better than to say all that we ever treat with a purgative medicine. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly."

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet, it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

THE DONATION VISIT; OR, HOW THE GOOSE WAS STUFFED.

BY N. DEERING.

[Concluded.]

"I suppose husband you are reserving your appetite for our supper at Elder Prout's; but be careful—nothing can be more injurious than overloading one's stomach at night, especially with meat victuals."

"There will be no danger of that Mrs. Bolster, if I confine myself to the old gander."

"The gander, husband, as you are pleased to call it, has been thoroughly parboiled, and for seasoning and stuffing I should like to see the woman in Twaddleton that would go before me; there is majoram enough, goodness knows. There is the goose in the pantry, and I wish you would just look at it; and by-the-by, as I intend to go early to arrange the table do place it carefully in the basket."

"I suppose my dear there is no need of affixing the label, 'this side up,' for fear of injury?"

"Do, Deacon Bolster, get along! How you pester! Well, this is indeed a life of trial——"

"And of probation," added the deacon, as he left the room to discharge the duty assigned to him.

By the time Mrs. Bolster had finished her toilet he was ready to attend her, and although bearing the large basket that contained the apple of discord, he appeared not only placid but cheerful.

"I must confess, wife," said he during their walk to the elder's, "that judging from the exterior, it does great credit to your skill."

"You may rely on't husband that it will eat as well as it looks. For my part I like something that requires chewing. When a fowl can be swallowed without that labour, I've always thought it more fit for the cat than the human species.—In fine, I like to feel the bit as it were."

"True my dear, nobody is more fond of a light rein."

"What did you say husband?"

"Oh, nothing of consequence."

It would be needless and indeed scarcely possible to enumerate the articles which through the liberality of Twaddleton, were last evening displayed for the benefit of Elder Prout. Suffice it to say that garments of every name and pattern were to be found in the best room, which was set apart for the purpose while the kitchen in which from necessity they were forced to suppress, displayed such an immense pile, drawn from the animal and vegetable kingdom, as might have led a stranger to suppose that the elder cared more for the body than the soul.

The gaiety of the parlour had so completely drowned the din and clatter of the kitchen, that the guests never once thought of the feast, and it was not till Bill had announced that supper was waiting, that they found they were in a right state for more substantial joys.

There was some little difficulty at first, in arranging the company, but it was soon over—Mrs. Bolster taking the head of the table, between the elder and his wife, while Mrs. Greeley occupied the other extreme. The deacon as he advanced looked anxiously at the viands and perceiving the gander directly in front of his better half, he gradually retreated till he secured a seat next to Mrs. Greeley.

As soon as the guests were seated, the elder at a nod from Mrs. Bolster proceeded to ask a blessing. It was an outpouring of the heart, and would have been pronounced lengthy had it been less touchingly beautiful. He thanked Providence that his lot had been cast among those who had shown their faith by their works, and prayed that the individuals there assembled, who had been so liberal with their basket and their store, would be remembered in mercy. "We read," said he, "that there is that scattereth and yet increaseth. May those, who have scattered this evening, find it like bread cast upon the waters, and may its return be twenty fold." At this passage the deacon's head gave an involuntary shake, and a slight flush suffused for a moment the countenance of his wife.

The prayer ended, the onslaught on the viands was sudden and vigorous. Major Parsons inserted his fork into a round of beef, the deacon grabbed a turkey, while old Master Sewell described an obtuse angle on a chicken pie. As the elder was the only man in the immediate vicinity of Mrs. Bolster, he politely offered to carve the "green goose" that lay so temptingly before them; but the lady—aware of the labour, and dreading the remarks to which the trial might give rise,—declined the offer, remarking that he was now a guest, and as she had always carved at her own table, it was no trouble to discharge that duty here.—Upon this she attacked the gander with a resolution that deserved success. Such however, was the tenacity of its joints, that her blows for a time fell harmless, and when at last she was enabled to dislodge the wing—the elder preferred the wing—her cheeks and neck reminded one of the peony, rather than the rest.

"You must certainly try my stuffing," she exclaimed, glad to rest for a moment from her arduous labours. "Was there ever a man who refused stuffing?" Certainly not the elder, as she extended towards him a table spoon filled with the savoury compound, when, lo! as the contents fell upon his plate, three golden half eagles glittered among the mass! If the elder was surprised, equally so was Mrs. Bolster.

The eyes of both were riveted on the plate when the former grasping the prize exclaimed—"Ladies and gentlemen, only look at the contents of Mrs. Bolster's goose! I think you will agree with me that she is entitled to the first premium for stuffing."

This announcement caused a start equal to the electric wire, and it was followed by the most uproarious applause. Old Master Sewell filling his tumbler with cider, proposed a toast, "Mrs. Bolster's improved seasoning—sage and majoram, with the addition of the Benton mint drops."

It was received by renewed cheers, and a confusion of tongues never exceeded by any similar number.—Major Parsons inquired whether this might not be a descendant of the goose that saved Rome. In his opinion such a breed would save any city.

Master Sewell, for his part, thought the public would have gained if some of them had been cooped up in Twaddleton bank.

Captain Pease declared this was the very goose mentioned by Æsop, that laid the golden egg.

"At what period did Æsop flourish?" demanded the deacon, preserving the gravity of his countenance but unable to prevent a twinkle in the corner of his left eye.

"Two thousand years ago," responded Mrs. Greeley.

"Two thousand," cried Squire Marble, "why that is actionable at common law. It implies that is an old goose, and consequently a tough one. Elder Prout you will find that Bacon's Digest settles that matter."

The elder who was then at work in the vain attempt to masticate, was unable to reply; but his looks seemed to say that if Bacon could digest that wing, he was an exceedingly clever fellow.

This conversation was absolute torture to Mrs. Bolster, and she would have sunk under it, had not the loss of the half eagles again occurred to her, and thus changed the current of her thoughts. The reflection caused such a heartfelt pang, that she leaned back, and for a while was apparently unconscious of her situation. But the lavish encomiums of her friends recalled her to herself, and perceiving that though she had lost in gold she had gained in reputation, she endeavored to assume an air of cheerfulness, and begged they would not allude to such a trifle. It may easily be imagined that a supper so auspiciously commenced would be joyous to the close. It was so, and when they separated, of all those who wended their way homeward, there was but one couple who manifested aught like gravity of deportment. During the walk Mrs. Bolster hardly spoke. The deacon, on the other hand was unusually talkative, but disconnected withal. The affair with the half eagles was a trick that Mrs. Bolster would not be likely to forgive, and he anticipated a curtain lecture. To his surprise she did not allude to it; but it was the engrossing topic by the next day all over Twaddleton; was equally well known on Plantation number Five, sixth range, and at last reached with additions, the settlement at Beer's Mill-pond. Since then several others who had seen better days, have through the instrumentality of the deacon, received similar visits; but in all of them his wife made such liberal provision that he has not yet found it necessary to improve the stuffing.

REMOVAL!

Hitchcock's Combination

Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your building at the same time, in case of fire or any other accident. You can have it with or without the forcing part. Any person, with a jack-knife, can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of F. B. MILLS, Exchange street, Bangor, where I shall remain for a few weeks. Town rights for sale.

SANDERSON & LANERGAN,

Etna Laboratories, East Cambridge and South Reading, Mass.

P. S.—Our extensive engagements in the Exhibition business have led many to suppose we furnished the Fire Works to the City of Boston last year (1857) when the unfortunate and fatal accident took place on the exhibition ground.

In justice to ourselves, and in answer to enquiries, we will State that, although we supplied the city of Boston for a number of years, and have contracted for the same the present year, we DID NOT supply them last year, the contract for 1857 having been given to other parties.

Safety, Utility and Beauty.

New England Trace Coupling Company.

STATE RIGHTS FOR SALE!

WE are now exhibiting this desirable invention to the public. The Patent Trace Coupling is an article which needs only to be seen to be appreciated, and universally adopted. By this Coupling the Trace is attached to the whiffletree *instantaneously, without soiling the hands;* *cannot* be disconnected by *accident;* is stronger and more *durable than any other* attachment now in use, and makes what is so desirable in a fine carriage an *excellent finish.*

The Couplings are manufactured of different materials, from the common finish to the *finest silver plate,* and can be supplied at a *lower cost* then any thing that is now used for that purpose, leaving a margin for an *immense profit.* Any person with a moderate capital can soon realize a fortune in its sale.

We are prepared to furnish the Couplings, of the different grades and costs, in quantities as desired, to those only who purchase State rights.

The Coupling may be seen at the office of the Company, where a scale of prices may be obtained, and all communications must be addressed to THE NEW ENGLAND TRACE COUPLING COMPANY, *Basement, No. 3, Old State House, Boston.*

United States and Foreign

PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries, Specifications and drawings prepared. Caveats filed, Reconsiderations procured, of applications, that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 23, 1853.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with the Office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, } Principal
L. D. GALE, } Examiners.
R. H. LANE,
P. SOUTHGATE SMITH, } Assistant
T. R. PEALE, } Examiners.
THOS. T. EVERETT,
WM. C. LANGDON,

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendations made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

LEA & PERRINS'

CELEBRATED

WORCESTERSHIRE SAUCE.

PRONOUNCED BY CONNOISSEURS TO BE THE "*Only Good Sauce*" AND APPLICABLE TO EVERY VARIETY OF DISH.

EXTRACT of a Letter from a Medical Gentleman AT MADRAS TO HIS BROTHER at Worcester, May, 1851.

"Tell LEA & PERRINS that their Sauce is highly esteemed in India, and is, in my opinion, the most palatable, as well as the most wholesome Sauce that is made."

The only Medal awarded by the Jury of the New York Exhibition for Foreign Sauces, was obtained by LEA & PERRINS for their WORCESTERSHIRE SAUCE, the world-wide fame of which having led to numerous imitations, purchasers are earnestly requested to see that the names of "LEA & PERRINS" are impressed upon the Bottle and Stopper, and printed upon the Labels.

HIGHLY IMPORTANT DISCOVERY.

Fousel's Pabulum Vitæ

Has now gained its position before the public as

THE ONLY REMEDY

yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most

ASTONISHING SUCCESS

in the treatment of the above complaints.

Its unabated popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr. A. A. Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES

And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation. From its volatile nature, it affords vapors freely, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by regular physicians, by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation; the agent, however, assures the public in all sincerity, that this medicine is not only *perfectly safe, and free from all other deleterious ingredients,* but guaranties that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure

Consumption by using One to Six Bottles;
Bronchitis by using One to Three Bottles;
Coughs by using less than One Bottle;
Colds by using it Two to six Days;
Bleeding of the Lungs by using less than One Bottle;
Hoarseness by using less than One Bottle;
Soreness of the Chest by using less that One Bottle;

Price $3 per bottle, accompanied by a Treatise.

For sale by

F. J. LAFORME, Sole Agent,
No. 5 Milk Street,
Boston, Mass.

And by all respectable Druggists and Apothecaries in the United States and British Provinces. nov25'57. dly jb

THE CRYSTAL OIL LAMP,

For Burning the Crystal Oil,

Combining Economy and Safety!

PATENT RIGHTS

FOR STATES & COUNTIES FOR SALE!

This important invention for producing the *cheapest* light in the world, is now perfected and offered to the public. Numberless other attempts have been made to produce a cheap light, but were attended with such inherent objections as to destroy their utility and adoption. But the Crystal Oil Lamp, while it is the *cheapest,* is both safe and agreeable in every position, making a *clear, white and brilliant flame,* entirely free from *smoke or odor.* There is no danger from explosion, but is *perfectly safe* under all circumstances. The oil can be used in any place without fear of soiling the nicest garments. The lamps are simply arranged and perfectly controlable by the children and domestics, and so constructed that the light can be varied in a moment from that of one to eighteen or twenty ordinary lamps. While it is free from the disagreeable smell arising from the Kerosene, and the danger attending the use of burning fluid, it is found upon scientific comparison to produce

As much LIGHT for ONE CENT, as Kerosene will for Three Cents, or Burning Fluid will for Six Cents,

Thus saving five-sixths of the entire amount now expended, or the price of the lamp in about a month. They are adapted to all situations, making the cheapest and most desirable light for every place—the largest halls or churches as well as private dwellings. The patent on this lamp for the different States and Counties throughout the Union, with the exclusive sale of the Crystal Oil, is now offered to the public, presenting a rare opportunity for merchants to secure for themselves the monopoly of a trade entirely free from opposition. Facilities are completed for the manufacture of the lamps in such quantities that they will be furnished to the purchasers of rights in any style, at such a cost as will yield an almost incredulous profit. These rights will be closed off immediately, and the lamps and oil delivered as soon as desired. As no lamps or oil will be sold to any but purchasers of rights, all letters making the request will not be noticed. Communications addressed to the "Crystal Oil Lamp Co.," No. 5, Merchants Row, will be promptly attended to.

Crystal Oil Lamp Company, No. 5, Merchants Row, Boston.

LOOK.

THE LUXURY AND PROFIT OF

HONEY MAKING.

☞ **Torrey's Bee Hive.**

THE subscriber, having purchased the right of making and selling *Davis' Patent Bee Hive* for the Counties of Penobscot, Lincoln and Sagadahoc, which has been received with so much favor, and taken the first premiums wherever exhibited, has introduced an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals.

This Bee Hive, thus improved, is admitted by persons acquainted with the honey-making business, to be superior to every thing yet invented for the purpose. It covers all the requisitions for the profitable maintenance of the apiary, by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—conveniences for the removal of excrement, for the proper separation of the swarms, and generally for the health and comfort of the workers.

The boxes used in this Hive for storing honey, are the best adapted in their size, for the market, holding from three to six pounds each.

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights.

For sale, fifty swarms of bees, with the new hives.

For hives, individual rights, &c., address

R. E. TORREY,

feb13 d&w Fifth-street, Bangor.

Republican Nomination.

FOR GOVERNOR,

LOT M. MORRILL

STATE OF MAINE.

EXECUTIVE DEPARTMENT, Augusta May 20, 1858. }
An adjourned session of the Executive Council will be held at the Council Chamber, in Augusta on TUESDAY, the *twenty second day of June next* Attest,
NOAH SMITH JR., Secretary of State

Reported for the Whig & Courier
The Republican State Convention.

AUGUSTA, June 24

The Convention which assembled here to-day is one of the largest delegate Conventions which has ever been held in the State, and as enthusiastic a body as we have ever met. It is emphatically a *people's* Convention—being in a very large degree constituted of representatives from the bone and muscle of the State. The Republican delegates from all sections are in excellent spirits and bring good reports of the campaign.

The following are the proceedings up to the time of the closing of the mail (2 P M.)

The Convention assembled at Meonian Hall, at 10 o clock in large numbers, and was called to order by B W Norris Esq of Skowhegan. On his motion the Hon Ezra B French of Damariscotta was called to the chair. On taking the chair he congratulated the Convention on the attendance and harmony which prevailed.

Frederick E Shaw Esq, of Bangor, and William W Bolster of Dixfield were appointed Secretaries.

On motion of Hon John Berry of Gardiner, the following Committee on credentials was raised viz

York—M F Wentworth, Kittery
Cumberland—C E Stackpole Gorham
Oxford—E B Bean Brownfield
Androscoggin—J D Teague, Turner
Franklin—Jason Chandler, New Sharon
Sagadahoc—L H Witham Richmond
Kennebec—John Berry, Gardiner
Lincoln—Edward Frye New Castle
Waldo—Nathan Pearce, Montville
Hancock—Frederick Webber Castine
Washington—Samuel Furlong Calais
Aroostook—Eben Woodbury, Houlton
Penobscot—Charles C R cord Bangor
Piscataquis—Ephraim Flint Dover
Somerset—Daniel Sampson, St Albans

On motion of Andrew T Dole of Portland, the following Committee on organization was raised

York—Seth Scammon, Saco
Cumberland—Andrew T Dole, Portland
Oxford—Thomas Chase Buckfield
Androscoggin—A Burbank Lewiston
Franklin—J B Morrison Farmington
Kennebec—Nash Graves Vienna
Sagadahoc—Josiah Morrow Bowdoinham
Lincoln—N A Farrel Rockland
Waldo—O is Kaler Frankfort
Hancock—N K Sawyer, Ellsworth
Washington—George Downes Calais
Aroostook—Joham Donnel, Houlton
Penobscot—W L Hammatt, Howland
Piscataquis—Samuel Whitney, Sangerville
Somerset—Geo, A Kimball, Athens

On motion of J G Blaine Esq of Augusta, the following committee on resolutions was raised

COMMITTEE ON RESOLUTIONS

York—E H Banks Biddeford
Cumberland—John A Poor, Portland
Oxford—John J Perry, Oxford
Androscoggin—T A D Fessenden, Danville
Franklin—Robert Goderow, Farmington
Sagadahoc—Joseph Barron, Topsham
Kennebec—J G Blaine Augusta
Lincoln—Wm es Hubbard, Wiscasset
Waldo—David A den, Northport
Hancock—J W Jones Ellsworth
Washington—James S Pike, Calais
Aroostook—Joseph B Hall Presque Isle
Penobscot—George W Ingersoll Bangor
Piscataquis—E H B Woodbury, Dover
Somerset—S D Lindsey, Norridgewock

On motion of Hon G W Dyer of Calais,

Voted That all resolutions presented to the Convention be referred to the Committee on resolutions.

While the committees were out, the Convention was ably addressed by Hon Samuel P Benson of Winthrop.

The committee on permanent organization reported as follows

PERMANENT ORGANIZATION

President—FRANKLIN MUZZY, Bangor
Vice Presidents—York—Nathan Dane, Alfred, Cumberland—E Burbank, Yarmouth, Oxford—H W Millet Norway, Androscoggin—Timothy Walker Lewiston, Franklin—John B Morrison, Farmington, Sagadahoc—Charles Russell Bath, Kennebec—J H Drummond, Waterville, Lincoln—G W Lawrence, Warren, Waldo—James Blanchard, Searsport, Hancock—L G Philbrook Sedgwick, Washington—John Stickney Calais, Aroostook—J tham Dorshell, Houlton, Penobscot—H E Prentiss Bangor, Piscataquis—Joseph Kelsey Foxcroft, Somerset—D White, Skowhegan

Secretaries—Frederic E Shaw, Bangor, W W Bolster, Dixfield, Charles A Miller, Skowhegan, Nelson Dingley Jr, Lewiston, Wm M Rust, Belfast, and Charles W Hammond, Elliot.

On motion of Mr Sayward, of Augusta, it was voted that the respective delegations report a name to constitute a State Committee.

Adjourned to 2½ o clock P M

The Convention numbers about six hundred and twenty delegates !!

[For closing proceedings see telegraphic column]

The Free Will Baptists of New Hampshire held their annual meeting this year at Pittsfield closing on the 13th. In the State are about 8400 church members, of whom 329 were added during the past year.

Excursions.

Capt. Wm Flowers, Eastern Agent for the Grand Trunk Railway, offers for sale excursion tickets to Quebec, Montreal, Niagara Falls, Saratoga, Chicago, and, indeed, to almost all points of interest in the United States and British North America.

This will afford an opportunity of taking a pleasant excursion, during the hot weather, to the White Mountains, and other points, at a very cheap rate, which is quite an important item this year, when economy governs the movements of the people in almost everything. The price of tickets is so low that almost all can afford to take the trip to the White Mountains, and the grandeur and beauty of the scenery is probably not surpassed by that of any mountains in the world.

Messrs Bradlee & Co of Boston, have issued a complete guide to those visiting the White Mountains, from which we copy a few passages.

After describing the route by the Grand Trunk railroad, it says

Passengers will arrive at Gorham (ninety one miles from Portland) about half past five o'clock, where they will be landed directly opposite the Alpine House. This house was erected expressly for the accommodation of the travelling public, by the railroad company in 1851. It is a place of great resort, aside from its being a point of ascent to the White Mountains, from the fact of the beautiful drives that may be enjoyed by the traveller, and its being in the immediate vicinity of Berlin Falls, the most remarkable cataract in New England, where the waters of the great Androscoggin larger in volume than the waters of the Connecticut, descend nearly two hundred feet in a distance of about two miles, while the remarkable Pinkham Notch, extending southward from this house, along the whole eastern base of the range affords a convenient access to the valley of the Saco, thence to the celebrated Crawford Notch.

From the Alpine House may be seen the long, irregular Carter Mountain, Mount Moriah and between the two a lesser peak called "the Imp," all of which are worthy of a visit. Carriages will be furnished the traveller to ascend Mount Moriah, or for a drive to the Glen-Ellis Falls, or to the Crystal Cascade.

"To accomplish the ascent of Mount Washington, we enter, from the Alpine House directly into the valley of the Peabody River, and pass due south, about eight miles up this valley, by the carriage-road. For the last mile or two, this road has connected with the ancient Pinkham Road, which penetrates through the whole length of the Notch known by that name on the east of the mountains. The carriage-road, from the Alpine House to the point of ascent, is close upon the margin of the Peabody River, and immediately beneath the great precipices, gulfs, and peaks, as they are seen on the east side of the range. All these are constantly visible, except as they are hid at times by the forest, which covers nearly all this valley in primeval density and magnitude. About five miles from the Alpine House, a little off from the road are two well cleared farms, which have been cultivated and inhabited for many years, notwithstanding their immediate proximity to the alpine summits above. From these clearings if the tourist will take the trouble to go off his route a little to get at them, there is a view of a remarkable 'Old Man of the Mountains,' chiselled in profile out of a projecting rocky cliff, high up in the eastern wall of the valley. It is not merely a head, like the Old Man of the Franconia Notch, but there is also a curious fabrication and similitude of shoulders and trunk, recumbent along the mountain side, behind the elevated head, giving the image at once of a sub mo it antic sphinx, overlooking the valley from its lofty bed."

The scenery in the vicinity of the Willey House is described in the same book. We copy it to show the wildness and variety of the views.

The Willey House romantically situated between frowning mountains, and an object of great interest from having been the residence of the Willey family, all of whom—nine in number—were overwhelmed by an avalanche from the mountain side, in August, 1826. The moving mass of earth, stones, and trees, was separated by a large block of granite a short distance from the house into two currents the northerly of which overwhelmed the barn, and spread itself on the plain below, while the southerly portion overtook the retreating family, and entombed them all in a moment, beneath its resistless mass. Near the spot, a large hotel was erected (which is now open to the public) while the Willey House itself has been preserved. Passing northwardly towards Lancaster, the traveller immediately enters the Notch, a narrow pass, two miles in length, between the mountains, which rise abruptly on either side to the height of two thousand five hundred feet. The road here pursues a zigzag course sometimes rising gradually, at others by steep acclivities, while near by, and occasionally crossed by the road runs a mountain stream, now gliding noiselessly along and now dashing over its rocky bed—the head waters of the Saco River. On either hand are seen beautiful cascades, at first appearing in the distance like a line of light against the dark ground of the picture and subsequently assuming a variety of forms as they pursue their rugged way to the stream at your feet.

About half a mile from the gate of the Notch on the southern side, is seen the Silver Cascade issuing from the mountain on the right and about two miles distant. It is said to be one of the most beautiful in the world, but, to be seen to advantage, it should be visited after heavy rains. The stream is scanty but its course from among the deep forest, whence its springs issue into the light, is one of singular beauty. Buried beneath the lofty precipices of the gorge, after ascending towards the Pulpit Rock—by the side of the turbulent torrent of the Saco,—the ear is suddenly saluted by soft dashings of this sweetest of cascades, and a glance upwards reveals its silver streams issuing from the loftiest crest of the mountain, and leaping from crag to crag, or spread in a broad, thin sheet of liquid light on the edge of some projecting ledge till it reaches the road, across which it passes forming a still and transparent pool immediately beneath, before it joins the Saco in the depths of the gorge. It is a beautiful vision in the midst of the wildest and most dreary scenery, and its sudden appearance—for nothing of it is seen till the tourist is immediately under it—is a moment of deep delight to him from the suddenness of the contrast.

Opposite these cascades stands Mount Willard. Ninety feet from its top is the mouth of a large cavern, called the 'Devil's Den.' In the summer of 1856, Dr. Ball of Boston, was let down to its mouth by means of ropes, and succeeded in entering it. He reports its depth to be twenty feet, its height, ten feet, and width, eight feet.

Continuing on, the road lies between Mount Willard and Mount Webster. This last mountain rises abruptly from the plain to the height of nearly two thousand five hundred feet. On the right may be seen the 'Old Maid of the Mountain,' a very correct profile further on, the 'Young Man of the Mountain,' another profile, and still further, near the gate of the Notch, high up on the right, "Pulpit Rock," so called from its resemblance to a pulpit, on the ledge of which the traveller can see, by close observation, a third profile, called "the Infant." This is said to have been first discovered by Ex Gov Baker of New Hampshire.

The seclusion of the scene, unbroken except by the occasional appearance of some fellow traveller, the magnitude and grandeur of the mountains around, and the varied forms and beauty of the streams which enliven these mountain wilds—combine to produce in the mind of the traveller emotions which cannot be adequately conceived, much less described. The passage through the Notch should be made leisurely, on foot or in an open carriage. At the north extremity, you emerge through a narrow cleft or chasm between the rocks, and just before you, on the left, is a verdant meadow, and immediately facing you is the Crawford House. A moment ago, the mind seemed shut up to the contemplation of the awful scenes of nature, now the mountains have disappeared, and the scene is one of civilized life, with all its interesting associations. The contrast cannot but be felt.

It must be much pleasanter in a hot day to climb the mountains and roam through the woods of Maine or New Hampshire, than to be roasting in a crowded room at Niagara Falls, Saratoga, or any other fashionable watering place, and we advise all who intend to take a summer journey, to select a tour to Moosehead Lake or the White Mountains in preference to any of the more crowded and possibly more fashionable resorts.

REPORTED PURCHASE OF THE STATE OF SONORA, BY NEW YORK SPECULATORS.—The Washington correspondent of the New York Herald furnishes the following intelligence, which though somewhat apocryphal may yet have some foundation in fact.

"From a source which is not official, nor semi-official, but in which I place a sufficient reliance to justify this communication, I am possessed of the following information in reference to Sonora.—I am positively assured that under the Mexican Comonfort government, or that preceding it a sale or cession was made of thirty nine millions of acres of land in Sonora, (a tract nearly as large as the State of New York) to a colonizing company in the United States whose head quarters are in the city of New York.

This plan of a cession of land to a colonizing company avoids the odium of a sale of national soil, while it secures the equivalent in cash from the company to the government and from the settlers to the company.

I understand that the responsible contractor with the Mexican government is in New York city, and that the company formed, and to be formed, are to pay him a handsome bonus, and that in this shape, or as advances to Mexico, he has already received forty or fifty thousand dollars.

In regard to the Mormons I learn that they are not included in the arrangement, as the contract between Mexico and the contractor was made before the Mormon rebellion had assumed any definite shape. But it is quite possible that there may be some connection between the late mission of Col. Thomas L Kane to Salt Lake city and the present movement of the Mormon community southward into Sonora.

Further than these hints my informant says he does not feel authorized to divulge but he thinks they will be enough to lead to the development of all the essential facts in the case.

Governor Cumming, writing the Department from Great Salt Lake city, May 12th says—'I have the gratification of authorizing you to announce that the road is now open between Missouri and California, and that emigrants and others adopting usual precautions for their safety against the Indians, may pass through Utah territory without hindrance or molestation. Parties will do well however, to report themselves at Fort Bridger, where any information I possess will be communicated.'

What Louis Kossuth thought privately of the style of his reception in America, has just been made public, through publication of a private letter, dated at Pittsburg, 1852, and addressed to David Urquhart, M. P. He wrote

'Dear Sir. You have heard what reception I have met with in America. They have bored me with triumphant entries, and invitations and addresses, but by submitting to this annoying part of my mission, I had the opportunity of drawing their attention to their foreign policy.'

THE SILK CROP.—Every season for some years past there has been great interest manifested in regard to the condition of the silk worm. It is probable that the disease which affects the silk worms the grape, and the potato, arise from the same cause. This is the period of uncertainty in regard the silk cocoons in Europe, and letters say that active fluctuations may occur in that article during the next few weeks. From some parts of Italy there have already been misgivings, but it is too early yet to form an opinion. Even if another European failure should occur, there can hardly be a return to former high prices, since the Chinese crop continues to increase. Last year it was of unprecedented extent, and according to advices just received, the promise this year is far more favorable, not only as regards yield but quality. It is likewise said to be more forward than usual.—*Traveller*

THE TELEGRAPH FLEET.—From St Johns, N F, we learn that a steamer will be dispatched to pilot the steamer Niagara as near as practicable to the point where it has been decided to land the Telegraph cable. The telegraph wires at St Johns have been placed in communication with the office at Trinity Bay, and it is stated that the company will place their line to New York at the service of the press and the public for the transmission of of such messages connected with the landing of the cable as may be handed in for a few days subsequent to the arrival of the Niagara. *New York Herald*

CHICAGO. A correspondent of the N Y Times, travelling in the West, says

'Chicago is evidently suffering greatly from the troubles of last year. The rush of several years back has been succeeded by severe reaction. The hand of improvement is stayed. Rents have fallen. The values of real estate are greatly reduced. Numbers of stores are vacant, and whereas on my former trip in 1856 the whole city seemed as bustling as Broadway, its appearance last week was proportionally like a retired country village.

[By Telegraph to Evening Paper]

Washington, June 24. Despatches from the American Minister at London cover apologies for the British Government for the search of American vessels in the Gulf.

Weller has been re appointed postmaster at San Francisco.

The navy yards at Portsmouth, Boston New York, Philadelphia Washington, Norfolk, Pensacola, and San Francisco, will each have the construction of a new sloop of war, constituting the eight ordered by Congress.

A woman fell into the raceway of a machine shop at Griswoldville, and her crinoline instead of buoying her up, insisted on throwing her head down and her feet up in the water as often as she rose to the surface, and as she would have perished had not Mr Griswold plunged in and righted her.

LOCAL AND MAINE NEWS.

POLICE COURT. Merrill S Buck was arraigned yesterday for stealing robes &c, from the stables of Caleb Billings and Daniel P Wingate, and bound over for trial at the Supreme Court.

BANGOR TROTTING PARK.—Captain John H Morrill, of this city, has leased for a term of years the Bangor trotting park and the farm connected therewith. He is now engaged in fitting up and furnishing a large public house on the grounds, which will soon be open for the reception of company.

Supreme Judicial Court.

The following opinions in actions pending on the Law Docket of the Eastern District were delivered at the present June Term of the Middle District, holden at Augusta.

WALDO COUNTY

Orr Cunningham vs Moses Buck.
Abbott — Brown and Palmer
"The default taken off and the action to stand for trial."

Israel Decrow et als vs Waldo Mutual Insurance Co.
W G Crosby — H O Alden

PENOBSCOT COUNTY

George Southerland vs Geo Ricker, J. apt.
Sewall — J H Hilliard
"Defendant defaulted."

P B Mills vs Samuel Darling, Adm r
Wakefield — Paine
"Judgment as of mortgage."

The Sabbath School, and those connected with the Unitarian Society, are, we understand, to have an excursion and pic nic at the beautiful grove near Hermon Pond, on Saturday, (to morrow,) if the weather is pleasant.

By invitation, those connected with the Swedenborgian Society and School go with them.

Cars leave the depot at 11¼ o clock. Another train goes at 3½ o clock. Fare 25 cents for excursion.

General Conference of Congregational Churches.

AUGUSTA, June 24 1858

Prayer meeting at 8½ o clock, conducted by Rev S M Gould of Biddeford.

At 8 o clock several Reports were presented and adopted.

Communications were read from the following corresponding bodies—Minnesota Illinois, Michigan Ohio and Canada.

Rev J Rowell spoke in behalf of the American Seamen's Friend Society.

The following delegates appeared in behalf of corresponding bodies—Rev S B Goodenow, New York. Drs Vaill and Barney, Massachusetts, Rev J Walcott, Rhode Island, Rev H V Dexter, from Maine Baptist Convention, Rev Stephen Allen, from Methodist Maine Conference, Rev H Whitcher from Free Will Baptist Yearly Meeting.

A resolution was adopted, approving of the action of the American Tract Society, Boston also, one in behalf of the universal prevalence of Peace.

Rev J K Mason, of Hampden, Cor Sec'y, read his Report—1291 have been added to the churches by profession, 474 by letter, number of conversions during the year exceed 2000, total number of members in the churches 17,582, deceased 280, 2 pastors died.

The Conference expressed its deep sympathy in the affliction with which Rev H Ilsley once a member of this body, has been visited, in the sudden removal of his entire family—and a resolution adopted to be communicated to him.

Afternoon—Conference Sermon by Rev H G Storer, of Scarboro.

Administration of Lord's Supper, by Rev S H Keeler of Washington Conference and Rev G W Cressey of York Conference.

Maine Universalist Convention.

WATERVILLE June 23d

The Maine Convention of Universalists commenced its Annual Session in this village, on Tuesday. The attendance, both of clergymen and laity, is very large.

On Tuesday forenoon Rev J O Skinner of Rockland, preached upon Church Organization, and in the afternoon, Rev R Blacker of Lewiston, preached, devoting a part of the sermon to the subject of Sunday Schools. The evening was devoted to a very interesting and refreshing Conference. An early hour on Wednesday morning was given to a prayer meeting. At half past ten, Rev A R Abbot of Mass gave a very able and telling report on the general state of the cause. In the afternoon, the attendance was so large that the Town Hall was opened and filled. Rev A Battles preached, and Rev G M Quimby delivered a sermon in the Church, to a crowded house.

The Educational Society had a meeting in the evening, and heard a report from Rev W R French, after which there was a discussion of the slavery question. Spirited and stirring speeches were delivered by Rev Messrs Battles, Cobb of Boston, Harris, Knowlton, Hanson Howe and Blacker. The audience was very large and listened with interest and approval to the several speakers.

This morning, after a spirited Conference Meeting, full of zeal and devotion, Rev L R Moor of Portland is delivering the occasional sermon, which I must go to hear.

The anniversary of our Independence is approaching, and 'Young America' are jubilant as they should, and have a right to be. Let us therefore give our citizens warning that the entire fire department are about to evacuate the city on that day, and that the Old Guard, the reserve corps, should be ready for the alarm. SEMPER PARATUS.

FUNERAL OBSEQUIES. The remains of the late Capt Thomas B Sanford which were deposited in the tomb of W A Blake Esq, at Mt Hope in March last, were interred with appropriate solemnity yesterday afternoon at 4 o clock. A prayer was offered by Rev Mr Maltby. Quite a number of relatives and friends were present.—*Times, 24th*

A Post Office has recently been established at East Winthrop, and Jeremiah Hawes appointed postmaster.

AUGUSTA YOUNG MEN'S CHRISTIAN ASSOCIATION.—On Monday evening last, this newly organized Association made choice of the following officers for the present year—

President—John K Lincoln
Vice Presidents—Frank W Kinsman, A H S Davis, David C Stone, Daniel C Ingraham, George Hawes,
Corresponding Secretary—Howard Owen
Recording Secretary—Chandler Beale
Treasurer—Enoch C Moody.
Auditor—Orrin Williamson
Directors—Alden W Philbrook, Thomas K. Noble, Elias G Hedge, Wm Dadman, Joseph Moody.—*Farmer*

On Wednesday, 16th, a little son of Mr Charles Clough, of Kittery, Me., fell from a window and broke his leg. On the same day, Mr Greenleaf Hanscom while pruning a fruit tree, unfortunately let his knife slip and it entered his eye, destroying the sight entirely, as it is feared.

GRASS. The grass crop has not been so promising for years in this section as it is at the present time. We do not see how we can well fail of having an unusually large hay crop. In fact, vegetation of all kinds though somewhat backward, looks promising. *Skowhegan Clarion.*

LOGS. There is a large amount of logs lodged about the falls at this place. Drivers are at work endeavoring to get them off, but unless there is a rise of water, it will be difficult and expensive in getting them to market. *Skowhegan Clarion.*

BEAR CAUGHT. A large bear was lately caught in Concord, by Messrs A J Lane and D F Cotton. He carried a large trap weighing thirty pounds, to which was fastened a log weighing some forty pounds more, about one mile through bogs and over ledges and windfalls. He measured six feet and two inches in length, and weighed three hundred pounds.—*Farmer*

NARROW ESCAPE.—A friend in Solon writes us that on Thursday last as the ferry boat was crossing the river from Solon to Embden, with two horses and carriage, the boat was struck by a passing log, which so frightened the horses that one of them backed out of the boat, carrying with him a little boy, about 11 years old, the son of Mr Southard Walker, of Embden, to whom the horse and carriage belonged. The struggles of the horse, aided by the current, carried him some distance down the stream, but he was finally got out. The horse died soon after reaching the shore. The boy and seat were thrown out when the wagon went overboard, but the little fellow stuck manfully to the seat, until aid reached him. *Clarion*

ELOPEMENT. On the 8th inst, Mr Harrison Hanson, of East Readfield left his home, for the expressed purpose of purchasing a yoke of oxen but as the wife of Mr George Diplock disappeared at the same time and as the guilty couple were afterwards seen and recognized at Buffalo N Y, the real object of his journey is made evident. Hanson is about 5 feet 10 inches in height, has a light complexion and light hair, and weighs about 135 lbs. He leaves a wife and two daughters. His companion has a scar on the corner of her right eye, caused by a burn. Mr Diplock offers $50 reward for such information as will enable him to arrest the fugitives.—*Farmer*

MOURNFUL.—A sad accident happened in Yarmouth Me, Tuesday. Hiram L, aged 9 years 2 months, and George, aged 7 years 9 months only sons of Hiram and Ann Howard were drowned while bathing in Royal river.

GETTING BETTER.—We understand that Wm Russell, who was stabbed by Grantham, at the mouth of the Aroostook, is likely to recover.

WATERVILLE COLLEGE. The Commencement Exercises at this Institution will be as follows

Sabbath evening, Aug 8th—Sermon before the Boardman Missionary Society, by Rev I G Warner, D D, of Boston.

Tuesday evening, Aug 10th, at 4½ P M.—Inaugural Address by President Champlin.

Tuesday evening Aug 10th—Oration before the Literary Societies, by Geo W Curtis Esq of N Y, and Poem by Wm B Heath, Esq, of Montreal.

Wednesday, Aug 11th—Class Exercises and Commencement Dinner.

DROWNED.—A French boy named Joseph Forkey was drowned at Kendal's Mills on Tuesday last. He and some other boys went into the river to learn to swim, and relying on two wooden blocks, which he held under his arms, he ventured out too far, and losing one of the blocks he sank. He was ten years of age and at the last accounts had not been found.—*Mail*

EXPLOSION AND NARROW ESCAPE.—While Mr W H Whedden, of the Empire Saloon, was engaged last Saturday in charging a soda fountain from a generator the fountain exploded with a loud report. The machine was standing directly under the stairway leading to Peirce's Hall, and against this the top of the fountain was thrown with force sufficient to carry it through the plastering and split off the steps made of two inch plank. Mr Whedden who but a moment before had been bending over the fountain was at the time standing near and was thrown down by the force of the explosion.—*Belfast Journal.*

NARROW ESCAPE.—As Mr Henry Sherman was stepping on board of his boat from the wharf in Camden on Tuesday last, the boat veered off and he fell into the water. Mr S is an old man and would, without doubt have been drowned, had it not been for the timely aid of George Burns who drew him from the water with a boathook. Mr S did not show sign of life for some minutes after he was taken out.—*Democrat*

SUICIDE.—Capt Alfred Sherman, a man who resided in the south of this city or in South Thomaston, committed suicide by hanging on Sunday night June 20 while on a visit to his mother-in Hope. He had been unwell, but no cause is known for thus sadly terminating his life. He leaves a family.—*Rockland Democrat*

☞FLORA TEMPLE SOLD. The celebrated trotting mare Flora Temple, has been purchased by Mr Wm McDonald of Baltimore for $8000. It is stated that her present owner offered to match her against Lancet, two races, mile heats, best 3 in 5 in harness, and two mile heats for $5000 each. There is considerable excitement in regard to these champions of the turf, and betting will be heavy if they are matched.

At a recent meeting of the law amendment Society, Lord Brougham told the following story—observing that no mode of payment could be fair which overlooked the previous training of the workman. Sir Joshua Reynolds was once asked by a person for whom he had painted a small picture how he could charge so much for a work which had only employed him for five days. Sir Joshua replied "Five days! why, sir, I have expended the work of thirty five years upon it."

AUGUSTA, June 24

AFTERNOON SESSION —Hon Lot M Morrill was unanimously nominated as candidate for Governor

Speeches were made by Gov Morrill and Hon Wm Pitt Fessenden

Resolutions were adopted enforcing the anti slavery doctrines of the Republican party, and denouncing the Administration for its attempt to repeal the Fishing Bounties

Various Items.

ROCHESTER, 24

The evidence against Mrs Littles and Money Locke is similar to that in Stout's case.—The pen, victorine and clothing found on the scene of the murder were identified as belonging to Mrs Littles by her mother and brother The evidence will probably conclude to morrow

The execution of Wood at Genesee, for poisoning his brother and sister, which was to have taken place to-morrow, has been delayed till July 9th

BOSTON, 24th

St John's Day was observed by the Free Masons to day, by a procession of Knights Templars, comprising the Richmond Encampment escorted by the DeMolay Encampment of this city After marching through many of the principal streets, they visited Bunker Hill to view the statue of Gen Warren At the monument an address of welcome to Virginians was delivered by Hon G W Warren, President of the Bunker Hill Monument Association which was responded to by J R Crenshaw, of the Richmond Templars The procession returned to this city, and in the afternoon listened to an address, ode, poem and other exercises, at Music Hall This evening they partake of a grand banquet at the American House Everything is being done to make the event a pleasant one, and thousands of our citizens lined the walks to-day, to view them while on the march To morrow they will make an excursion down the harbor

NEW YORK June 24

The American Telegraph Company have just opened at S Merchants Exchange in this city, the first section from New York to Philadelphia of their Southern seaboard line to New Orleans It is intended to use the Hughes Printing Instrument, one of the most extraordinary inventions of the age, upon the new lines as soon as completed The extortionate rates of the old lines between this city and Washington, have at last worked their own cure and the public will soon have an independent line, worked upon a vastly improved system and at rates about 50 per cent lower than are charged by the old combination lines

PHILADELPHIA, June 24

The rumor of an accident at Gray's Ferry, on the Philadelphia, Wilmington and Baltimore Railroad, is without any foundation

New York Markets.

Molasses quiet.

The Thunder Storm of Monday afternoon at New York.

The New York Herald gives the following account of the violent but brief thunder storm in that city and its vicinity, on Monday afternoon

The metropolis was visited yesterday by a terrific tornado and thunder shower It only lasted thirty minutes, but in that short space of time it did a great deal of damage It began at ten minutes before 4 o clock in the afternoon More houses were injured, more trees uprooted, and more awnings blown to rags than ever before by any one storm in this city Ten or fifteen large sized trees were torn up by the roots and prostrated in Union Square and one three or four of the largest in Tompkins square blown down a church in Forty fourth street, was nearly demolished, carts and carriages with their loads were actually capsized in the streets by the force of the wind, chimneys were blown down, blinds torn from their hinges signs and awnings scattered in wild confusion in every direction, brick and wooden houses in a number of streets were more or less damaged—some very seriously, vessels forced from their moorings and blown into the river, the American Flint Glass walls partially demolished at Hunter's Point killing two men, and wounding seven, shrubbery in hundreds of gardens utterly prostrated, and the streets flooded with water so that they looked like running rivers New York was, in fact submerged for about half an hour

The effects of the storm were felt with particular violence at Hunter's Point Long Island and all along the shores of the East River, on the Williamsburg side, and in the neighborhood of Green Point.

The wind was first felt coming strongly from the north-west, accompanied by frequent peals of thunder and vivid lightning flashes At Green Point and the vicinity immediately above the rain fell at one time as if it had been water from a fire engine hose and persons who were exposed to its fury, could with difficulty keep their feet.

About 4½ o clock in the afternoon, the west wing of the factory belonging to the American Flint Glass Company, at Hunter's Point, fell with a tremendous crash having yielded to the fury of the gale Two of the fifteen persons who were in the building were killed, and seven injured, and a woman so seriously that it is feared she will not survive

Mr Bernard Slane the foreman who was killed was 50 years of age, and the father of the superintendent of the works Thomas Gill, the engineer, was taken out of the ruins dead, and seven others who were taken out, were injured severely

In New York the roofs of the houses in Mulberry street were seriously affected in many instances by the storm Several of them were much damaged and many of the tallest chimneys were leveled to the ground. The most lamentable occurrence in this street however, was the blowing down of the tall chimney of the Methodist book store No 200, Mulberry street.

A new Episcopal church in Fifty fourth street, Second avenue, was totally destroyed by the storm The building of the church had been commenced about the first of May, and had just been completed. It was a large frame edifice resting on a large brown stone foundation and of its kind could still be judged by the appearance of the ruins, to have been very substantial in its mode of construction. It is now nothing more than a mass of broken timber, crushed to fragments by its own weight. The cost of this building was probably about $10,000

Many wagons were tumbled over in various streets, and in some instances the drivers were put *hors du combat*.

In all the upper part of the city trees have been torn up by the roots or stripped of their boughs, and left to testify hereafter as to the violence of the hurricane

During a late debate in the English House of Commons, upon the question of electing members of Parliament by ballot, Lord John Russell said, that without entering into any discussion of the liberties enjoyed in the United States, he would not be willing to exchange the liberties of the English people for them.

A FACT Mistress—I think, Cook, we must part this day month

Cook (in astonishment)—Why, ma am? I am sure I've let you ave your own way in most everything!—*Punch*

A DONKEY AMONG THE BEES A laughable occurrence took place a day or two since upon a farm in the outskirts of the city, in which a donkey occupied a very prominent part, and showed himself to be a far less intelligent animal than the one we read of, who when penned up in the farm yard with the chickens, remarked, as he trod them under foot, "Every one for himself and God for us all

This modern donkey, being penned up in a yard, under circumstances quite similar to those of his ancient prototype, undertook the more dangerous experiment of treading on the bees, so he thrust his ugly nose against the hives, and made a determined onset upon the whole row, as if each individual hive was a trough of meal Not relishing such familiarity with their domestic arrangements, the bees rushed out in swarms and commenced their assaults upon him in such a savage manner as made the poor beast think he must leave in a hurry, which he accordingly did But the bees, not content with acting merely on the defensive, seemed determined to punish him for his temerity, and give him a lesson which should last him through life Literally covering his whole body, they stung him on his nose, they stung him on his ears, they stung him in his eyes Upon his back and upon his belly, upon his neck and upon his legs, they fastened themselves by hundreds and thousands, and wherever a sting could penetrate the poor donkey had to take it

Frantic with rage and pain, the animal brayed and bellowed, and ran, and jumped and lashed his sides with his tail, and finally, as if in utter despair of getting rid of his assailants, he threw himself upon the ground and rolled over and over in an agony of pain Finding this to be of little use, and that his assailants seemed to multiply rather than diminish, the poor donkey picked himself up again, and seeing the kitchen door open, with ears and tail erect, and eyes glistening with fears and terror, he made a rush into the house Thither the bees followed him, and such a scene as then ensued has seldom been enacted In vain the donkey rolled upon the floor—in vain he jumped over the cook stove overturned the chairs, and upset the table the bees had not done with him yet, and it was not until the whole household, summoned by the noise, had worked vigorously for some minutes with napkins and dusting brushes, that poor John Donkey was sufficiently rid of his enemies to be able to leave in safety by another door than that which he had entered

This is no fable reader, but a veracious narrative, yet there is a moral to it as good as if it were a fable, and one which the strong, who attempt to oppress the insignificant and apparently weak—and the meddlesome, who are inclined to poke their noses into other people's business and the censorious, who harker after that which does not belong to them would do well to consider, for all such are liable to the same experiences as the donkey met with among the bee hives —*Worcester Spy*

NOTICE.

Choice Lumber Lands For Sale in Pennsylvania!

THESE Lands are located on the Susquehanna River, and the larger tributaries in Clinton, Clearfield and Centre Counties They are thickly covered with a heavy growth of choice Timber principally White Pine of excellent quality yielding on an average 40 000 feet to the acre of Pine alone The Sunbury and Erie Railroad passes through several of them The River and Streams are admirably adapted for Logging and Rafting Logs are floated to Lock Haven, a few miles below and there sold at great profit These Lands are well worth examination as their present unusual facilities for extensive lumbering operations Timber leave is now readily sold for $2 per M feet. All these lands are underlaid with several veins of bituminous coal of excellent quality On account of facilities of transportation and improvements making in that section, these lands offer every inducement for profitable investment. For full particulars locality &c, inquire of ANDREW GRIFFIN Esq of Bangor, or address QUIGGLE & LANCOARI, No 108 So 4th St Philad'a

STEAMERS.

SUMMER ARRANGEMENT.

NEW YORK & PORTLAND.

The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY CROWELL, will run regularly between *New York* and *Portland*, as follows:

Leaves Brown's Wharf, Portland, every SATURDAY, at 4 P. M., and returning, leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for Passengers, making this the most speedy, safe and comfortable route for travellers between New York and Maine.

PASSAGE $5,00—including Fare and State Rooms.

☞ Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport and St. John. Also, connects with steamers for Baltimore. Goods taken through with despatch, at the cheapest rates.

For freight or passage apply to
EMERY & FOX, Brown's Wharf, Portland. H. B. CROMWELL, Pier 12 N. River, New York.
Portland, April 2, 1858

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets, including transit of the Isthmus, via. Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the only line giving entire Through Tickets, including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama*, and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent, No. 15 Broad Street, Boston.
August 1, 1857 1y

Portland to Boston.

Summer Arrangement.

The Steamers LEWISTON, Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock P. M.

Fare in Cabin, $1,25
Fare on Deck, 1,00
Freight taken as usual.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value. L. BILLINGS, Agent.
June 12, 1857 dtf

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington under Act of 1837,)

76 State Street, opposite Kilby-st., *BOSTON.*

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber, during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of Patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor for procuring patents.—There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHARLES MASON, Com'r of Patents.

To Mechanics, Inventors, and Manufacturers.

IN announcing the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and stimulate the formation of clubs, they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers, sent in by the 1st of January, 1858, said premiums to be distributed as follows—

For the largest list $300; 2d, $250; 3d, $200; 4th, $150; 5th, $100; 6th, $90; 7th, $80; 8th, $70; 9th, $60; 10th, $50; 11th, $40; 12th, $35; 13th, $30; 14th, $25; 15th, $20.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of Jan., 1858.

Southern, Western, and Canada money will be taken for subscriptions. Canadian subscribers will please to remit twenty-six cents *extra* on each year's subscription to pre-pay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates.—Five Copies, for Six Months, $4; Five Copies for Twelve Months, $8; Ten Copies for Six Months, $8; Ten Copies for Twelve Months, $15; Twenty Copies for Twelve Months $23.

For all Clubs of Twenty and over the yearly subscription is only $1.40.

The new volume will be printed upon fine paper, with new type.

The general character of the SCIENTIFIC AMERICAN is well known, and, as heretofore, it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill-Work*, and all interests which the light of Practical Science is calculated to advance. It is issued weekly, in form for binding; it contains annually from 500 to 600 finely executed Engravings, and notices of American and European Improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combatting and exposing false theories and practices in Scientific and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country. MUNN & CO.,
Publishers and Patent Agents,
128 Fulton-st, New York.

FIRE AND MARINE INSURANCE.

CHARTERED BY LEGISLATURE, JUNE, 1855.

Authorized Capital, $500,000. *Cash Capital paid in and securely invested*, $150,000.

OBED P. MILLER, Secretary. WARD COWING, President.

BOARD OF DIRECTORS.—Ward Cowing, William A. Bradford, Samuel B. Darling, Edward B. Porter, George W. Hall, F. C. Gardiner, Obed P. Miller, Thomas A. Doyle, William B. Ryder, George Cleveland, Philip Ryder.

THIS Company Insures against Loss or Damage by Fire, on Stores, Merchandise, Dwellings, Mills, Manufactories, Hotels, &c.; also on Marine and Inland Transportation Cargo Risks at the ordinary rates of premium.

Losses, Promptly and Equitably Adjusted and Paid.

All premiums are made specific when Policies are issued, and are to be prepaid in money; and no further assessment in case of loss is to be made on the parties so insured. The advantages of a Stock System, which precludes the possibility of an assessment, are very obvious.

The Board of Directors have authorized the issues of Policies on country risks, detached, on very low terms.

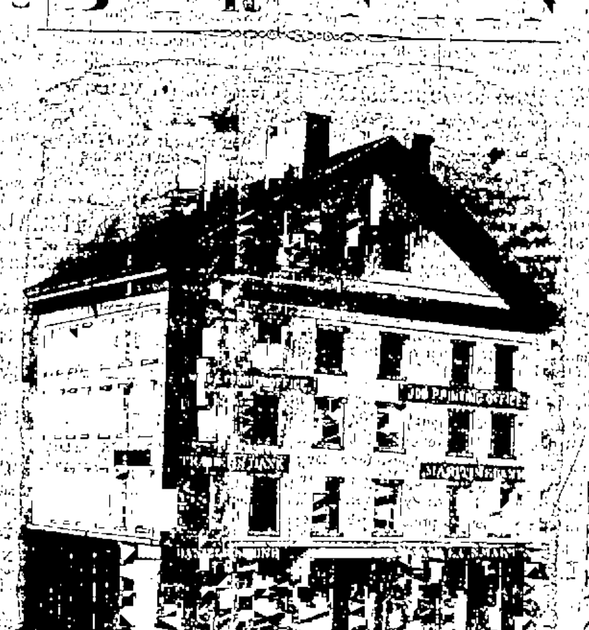

The Company expect to deserve the confidence of the public, by doing business on as favorable terms as any other similar institution, and by the utmost fairness and liberality in all their dealings.

Policies granted and issued to parties effecting Insurance, at once without delay, by the undersigned, at his office.

WILLIAM H. WHEELER,
JOHN H. LYNDE.
Bangor, December, 1857.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are oft-en wet, it is one of the greatest causes of colds and consumption? Is it not a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

LIVER INVIGORATOR

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, *purifying the blood*, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and, what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents *nightmare*.

Only one dose taken at night loosens the bowels gently, and cures *costiveness*.

One dose taken after each meal will cure *Dyspepsia*.

One dose of two teaspoonfuls will always relieve *Sick Headache*.

Only one dose immediately relieves *Colic*, while

One dose often repeated is a sure cure for *Cholera Morbus*, and a preventive of *Cholera*.

Only one bottle is needed, to throw out of the system the effects of medicine after a long sickness.

One bottle taken for *Jaundice* removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures *Chronic Diarrhea* in its worst forms, while *Summer and Bowel Complaints* yield almost to the first dose.

A few bottles will cure *Dropsy* by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for *Fever and Ague, Chill Fever*, and all Fevers of a *Bilious type*. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.

DR. SANFORD, Proprietor, No. 345 Broadway, N.Y. Retailed by all Druggists. Sold, also, by B. F. Bradbury, Bangor. june9'58 d&wly

OLDTOWN HOUSE,

Oldtown, - - - - - - Maine,

BY MRS. HARRIET STINSON.

The undersigned very respectfully informs her friends and the public generally, that she has lately refitted and refurnished the *Oldtown House*, and is prepared to accommodate all who may favor her with a call. Every attention will be bestowed upon guests and travelers, who are assured that for a brief or long stay, they will find their wants and comforts always cared for. The table will always be supplied with the best the market affords, and all the luxuries of the season.

In connection with the above House is a large and well finished hall, suitable for Dancing parties.

Connected with the House is one of the largest Stables in Oldtown, with the best accommodations for horses and teams, which is under the care of a faithful hostler.

Parties from Bangor, or other places, can be accommodated on reasonable terms, on giving a short notice. HARRIET STINSON.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths, 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent and much superior to any other; as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

m18 O. K. PATCH.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these Pills are found to cure many varieties of disease.

Subjoined are the statements from some eminent physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright, of New Orleans.

"Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox, of St. Louis.

"The Pills you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of *dyspepsia* and *indigestion* with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHOEA — RELAX.

From Dr. J. G. Green, of Chicago.

"Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery* and *diarrhoea*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION—WORMS—SUPPRESSION.

From Mrs. E. Stuart, who practises as a Physician and Midwife in Boston.

"I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn, Montreal, Canada.

"Too much cannot be said of your Pills for the cure of *costiveness*. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall, Philadelphia.

"You were right, Doctor, in saying that your Pills *purify the blood*. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE—SICK HEADACHE—FOUL STOMACH—PILES—DROPSY—PLETHORA—PARALYSIS—FITS—&c.

From Dr. Edward Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer you what complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly."

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

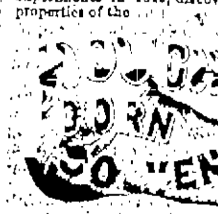

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.
